State Department Reveals  
Purposes of the Rus-  
sian Reds.

WOULD KEEP THEM OUT

Non-Intercourse Maintained  
With Government to Keep  
"Reds" Gold Out.

NEW LEGISLATION NEEDED

Policy Cannot Be Perused  
After Declaration of Peace  
Without New Law.

WASHINGTON, Nov. 4.—The Russian bolsheviks have availed themselves of every opportunity to induce in the United States a propaganda aimed to bring about the overthrow of our present form of government. Chairman Wadsworth of the senate military committee has been informed by Assistant Secretary Phillips in a letter made public today at the state department.

The bolsheviks, Mr. Phillips said, have at their disposal large quantities of gold, partly a remnant of the former Russian government and it is considered important not to give them means through commercial transactions to bring this gold into the United States where it could be used to sustain their propaganda of "violence and anarchy."

Mr. Phillips said that while there was no blockade of Petrograd so far as the United States was concerned, no license for the shipment of goods to bolshevik Russia were being issued. This policy of non-intercourse, he added, could not be continued after proclamation of peace without additional legislation.

## IF BACKACHY OR KIDNEYS BOTHER

Eat less meat, also take glass  
of Salts before eating  
Breakfast.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and beg like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water, also get from any pharmacist four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

## OTHER CHARGES ARE DENIED

War Chief Says Other Reductions  
Were Not Caused By Anything  
Said Before Committee.

WASHINGTON, Nov. 4.—(Havas)—General Samuel T. Ansell was demoted for "slandering" his superiors and not because of his opposition to the court-martial system of the army.

Secretary of War Baker said this afternoon, replying before a subcommittee of the military affairs committee of the senate.

Senator Chamberlain of Oregon, asked:

"Is it a fact that officers who have testified before this committee have been demoted?"

The question aggravated Secretary Baker, who replied: "Absolutely not."

Senator Chamberlain asked the secretary if it was not true that General Kennedy, McKim and Ansell were reduced?

"None of them were demoted for anything at all, with the possible exception of General Ansell, whose case you suggested and who slandered his superiors," the secretary replied.

"None that you know of is possibly what you mean," Mr. Secretary Chamberlain replied.

## THINKS FIXING COAL PRICE TO END STRIKE

James Lord, Head of Miners Division  
in Labor Federation, Predicts  
Capitulation of Operators.

NEW YORK, Nov. 4.—The end of the national coal strike in four weeks was seen here today by James Lord, president of the miners department of the American Federation of Labor, after a conference with Samuel Gompers.

"The strike, I think, will be over in about four weeks," he said. "I can't see how the operators will let the strike run because Garfield has nailed down the price of coal which eliminates their chances to clean up by profiteering."

"The element of uncertainty in the strike has been eliminated by Doctor Garfield's fixing of prices. I don't believe that the government can smash the strike by injunctions and I am dubious of President Wilson's plan for an outside commission to settle it. It will be settled by a conference between the miners and the operators."

"The miners are entirely prepared, however, to stay out indefinitely. Between \$25,000,000 and \$30,000,000 is behind them. They are determined to get their rights this time. All this talk of radicalism and alien has antagonized them. Outside of a very few radicals, every man in the organized labor movement is standing squarely behind Samuel Gompers."

"If any rioting comes out of this

strike it will be the fault of the operators. Riots and disorder are easy to create. I've seen them planned and carried out under my very nose."

"The parades of gunmen, thugs and militia through the streets of mining towns are in themselves enough to create antagonism. Thugs have been hired to deliberately insult the miners' women so as to provoke outbursts. I have steadfastly counseled the men to preserve the peace in spite of all provocations, but some of these things make us forget peace."
